Use of Cancer Formulations 1, 10 and 18 through 52 Week schedule in different ways.

Pankaj Oudhia

Introductory Note

In Traditional Healing [different cancer formulations](#) are used in combinations in different ways by the Traditional Healers of Indian state Chhattisgarh. In this document I have tried to present the different ways of use of cancer formulations no.1, 10 and 18. These formulations are used in over 100 ways. It is very difficult to generalize it. The Healers use these formulations with Medicinal Rice “Bhejri”, “Tenduphool”, “Alcha”, “Laicha” and “Laha Gondi”. Based on the condition of the patients they suggest different herbs and herbal combinations in these schedules. MONM, TUEM, WEDM, THURM, FRIM, SATM and SUNM are filled with these herbs and herbal combinations. They claim that these herbs and herbal combinations are compatible with cancer formulations and in most of the schedules it increases the performances of these formulations. I have observed the use of combination of cancer formulations 1, 10 and 18 in plus 50 cases so far.
